URO-ECOGI TABS

(WATERLESS URINAL BIO-TABS)

NO WATER AND ELECTRIC EXHUST FAN FOR URINALS

URO-ECOGI TABS URINAL DEODORIZER & DRAIN MAINTAINER

&
ELECTRICITY

Save water, No-Flush, No-Malodor For Waterless Urinal System & Conventional Urinals

(Regardless of the urinal condition, **URO-ECOGI TABS** maintains all urinal bowl or troughs money, and save money. Other waterless urinal systems require replacement of existing urinals and incur additional installation costs, plumbing works and re-tiling.

ONE “URO-ECOGI TABS” CAN SAVE UP TO 18,750-19,000 LITRES OF WATER DURING THE PERIOD OF 30-45 DAYS

FEATURES AND BENEFITS OF URO-ECOGI TABS

URO –ECOGI TABS reduces the water usage for flushing the urinals to the very minimum, which in turn saves **PRECIOUS WATER** and extends the usage of **URO-ECOGI TABS**.

URO-ECOGI TABS produces enzymes that completely and efficiently breakdown the odour-causing compound in urine and prevents troublesome solids build-up in the drain-pipes even without flushing or nominal flushing.

URO-ECOGI TABS is formulated to dissolve slowly, releasing the **BIOLOGICALLY ACTIVE** ingredients and a refreshing scent, which helps to maintain a clean, fresh-smelling & slog free urinal with environmentally friendly bio-enzymatic action.

DIRECTION FOR USE & MAINTENANCE:

Easy To Use- Simply place **URO-ECOGI TABS** at the centre of urinal drain of Waterless Urinal system and Conventional Flushing Urinals.

For Conventional Flushing Urinals-Shut out water connecting to the urinal or reduces the volume of flushing water to the very minimum that will save water up to 99%.

Regular Maintenance-Spray **URO-CLEAN-ECOGI** All-in-one Surface Cleaner/Odour Eliminator (ready-to-use) directly on urinal surface and floor area underneath the urinals daily at least once a day.

SAVE WATER

SAVE ENERGY

URO-ECOGI TABS

Water-less Urinal Bio-Tabs

URO-ECOGI TABS URINAL DEODORIZER & DRAIN MAINTAINER

Save water, No-Flush, No-Malodor

Regardless of the urinal condition, **URO-ECOGEI TABS** maintains all urinal bowl or troughs money, and save money. Other water-less urinal systems require replacement of existing urinals and incur additional installation costs, plumbing works and re-tiling.

For Waterless Urinal System & Conventional Urinals

FEATURES AND BENEFITS OF URO-ECOGEI TABS

URO ECOGEI TABS reduces the water usage for flushing the urinals to the very minimum, which in turn saves PRECIOUS WATER and extends the usage of URO-ECOGEI TABS.

URO-ECOGEI TABS produces enzymes that completely and efficiently breakdown the odour-causing compound in urine and prevents troublesome solids build-up in the drain-pipes even without flushing or nominal flushing.

ONE “URO-ECOGEI TABS” CAN SAVE UP TO 18,500 - 19,000 LITRES OF WATER DURING THE PERIOD OF 30-45 DAYS

DIRECTION FOR USE & MAINTENANCE:

- Easy To Use- Simply place **URO-ECOGEI TABS** at the centre of urinal drain of Waterless Urinal system and Conventional Flushing Urinals.
- For Conventional Flushing Urinals-Shut out water connecting to the urinal or reduces the volume of flushing water to the very minimum that will save water up to 99%.
- Regular Maintenance-Spray **URO-CLEAN-ECOGEI** All-in-one Surface Cleaner/Odour Eliminator (ready-to-use) directly on urinal surface and floor area underneath the urinals daily at least once a day.

No water and electric exhaust fan for urinals

ECOGEI

Odor less Bin

Ozone kill bacteria, remove odor completely

- Ozone deodorize fully
- Consist of oxygen atom Harmless to natural

Infrared Sensor Switch, Auto open cap

Feature

- Use infrared sensor, auto open cap without touch
- Kill bacteria and removed odor of food rubbish and diaper
- Mildewproof, away from louse and roach

Air freshener just cover odor, can not remove odor.

Ozone has strong oxidizability, can decompose odor fully.

Ozone kill bacteria and remove odor

Odor cause mildew stick on food

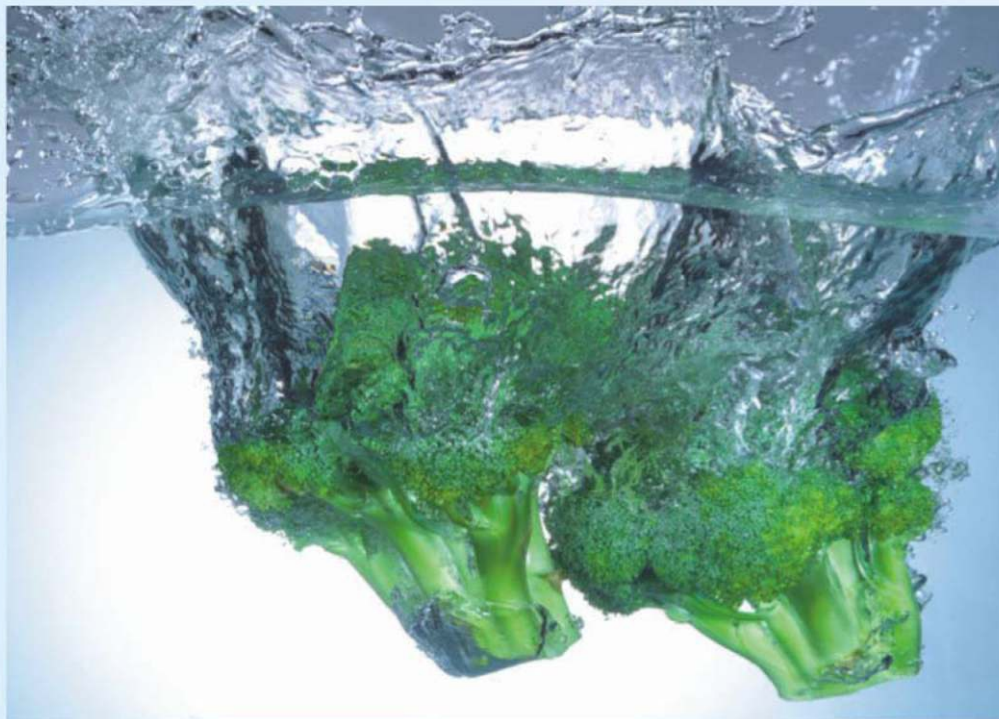

Ozone deodorize and disinfect directly and effectively

Ozone consist of oxygen atom, harmless to human body and environment, can deoxygenate to oxygen automaticly.

Specification

Technology	Electrical Ozone Generator		
Name	Odorless - Bin		
Model	OT-RB01	OT-RB02	OT-RB03
Volume	25L	35L	45L
Size(LxWxH)	24.5x34.5x52 cm	24.5x34.5x62 cm	24.5x34.5x72 cm
Weight(kg)	3.2kg	3.5kg	3.8kg
Material	Stainless steel(Body part), ABS (Cap part)		
Power supply	AC Adapter Output 6VDC 2A Input 100-220VAC 50/60HZ / Battery AA x 4pcs		
Sensor	Auto infrared sensing		
Switch	One button on/off		

Description

Ozone can directly turn tap water to ozonated water and it is powered by 2 way, self power by directly connected to any normal tap and it is powered by integrated hydroelectric generator (Patented Technology) or external power adaptor if water pressure is much low.

Specification

Ozone output:	70mg/hr
Power supply:	Hydropower
Power rate:	3W
Working pressure:	0.20Mpa-0.45Mpa
Ozone concentration:	0.1PPM-0.3PPM
Material:	ABS
Environmental humidity:	25%RH-68%RH
Working temperature:	0-40℃
Size:	102*71*77mm
Weight:	240g

Application

- ☐ Eliminate organic pesticide and bacteria by washing vegetable and fruit
- ☐ Preserving food
- ☐ Eliminate fishy smell
- ☐ Eliminate bacteria and virus by washing hand table ware, kitchen ware, feeding-bottle, toys and even washing clothing and floor
- ☐ Deodorize the smell from pet by using ozonated water to wash pet
- ☐ Keep oral hygiene, deodorize bad breath and make teeth white
- ☐ Prolong life for fresh flower
- ☐ Make face and skin more softer and more beautiful

ECOGEI

Description

With ozone technology, it can effectively and safely do air sterilization, kill bacteria, remove odor with automatic time controller, easy to use and maintenance.

Specification

Model:	OT-AP1G
Input Voltage:	220/50Hz, 110/60Hz
Input Current:	400mA
Power consumption:	60W
Ozone Output:	5 g/hr Max
Coverage area:	200M ³ Max
Timer:	Digital Timer with LCD
Weight:	2.6 kg
Dimension:	300 x 172 x 155 mm

Application

Washroom

Meeting room

Operating room

Ward

Hotel

Car
